

SUMIT SAINI

SOC Analyst L1 | Security Operations & Blue Team

✉ Sumit70377855@gmail.com ☎ +91 7817033430 📍 Amroha, Uttar Pradesh 🔗 Portfolio 🌐 LinkedIn
🐙 Github

PROFESSIONAL SUMMARY

SOC Analyst L1 candidate with cybersecurity internship experience and hands-on labs in alert triage, SIEM log analysis, phishing investigation and network traffic analysis. Builds Python security tools and uses AI-assisted scripting and documentation to accelerate routine project work.

INTERNSHIP EXPERIENCE

Cybersecurity Intern 07/2026 – 08/2026
Skillfied Mentor
Developed Python security utilities, completed guided defensive exercises using Kali Linux, and documented commands, findings and task outcomes.

EDUCATION

Bachelor of Computer Applications (BCA) - Cyber Security 2024 – 2027
Teerthanker Mahaveer University Moradabad
Expected

TECHNICAL SKILLS

SOC operations: Security monitoring, alert triage, event correlation, TP/FP/BP classification, incident documentation, evidence-based escalation, **Investigation:** Windows Event Logs, Sysmon, phishing analysis, indicators of compromise (IOCs), network traffic analysis, MITRE ATT&CK fundamentals, **Tools:** Splunk SIEM (lab), Wireshark, Nmap, Nikto, Python, Scapy, Git/GitHub, **Systems and networking:** Windows, Linux, VMware, TCP/IP, DNS, HTTP/HTTPS; EDR concepts

TRAINING AND JOB SIMULATIONS

Mastercard Cybersecurity Job Simulation 06/2026
Forage

Deloitte Australia Cyber Job Simulation 03/2026
Forage

PROJECTS

Sentinel Desk SOC Investigation Lab
- Built a SOC training application with synthetic alerts and linked identity, endpoint, network and email evidence.
- Added evidence bookmarks, investigation worksheets, saved case status and analyst handoffs.

Incident Response Simulation
- Analyzed 56 synthetic Windows/Sysmon-style events with Python; correlated failed and successful logons with PowerShell, DNS and network activity.

Packet Sniffer and ARP Spoofing Detector
- Built a Python/Scapy tool to analyze traffic, detect IP-to-MAC changes, and export logs.
